

Request for relocation of mobile optical fiber cable

Overview

To request relocation of a Telstra asset or a commercial works to be completed, fill in the Relocation Request form or contact us on 1800 810 443 from 9:00am to 6:00pm AEST Monday to Friday. Fiber optic cabling demands a level of care during relocation that goes well beyond what copper infrastructure requires. Key elements include the fibre core, cladding, and protective outer layer. The permission herein granted for the installation of low voltage fiber-optic cable for the State 's Traffic Management System (TMS) and/or Intelligent Transportation System (ITS) is subject to the reasonable needs and requirements of the Railroad in. Relocating fibre optic lines is essential for ensuring network stability during infrastructure changes. To carry out this process effectively, careful planning is crucial to prevent issues such as cable bending or breaking.
