

Rolling netting behind the distribution box

Overview

Back of rack netting is a popular alternative to traditional anti-collapse steel mesh screens, protecting workers in the warehouse at a lower installation and maintenance cost. You can find out more about how these systems compare to fixed mesh systems [here](#). A falling item could result in injury to a person at ground level, or it could strike equipment —. We offer mesh netting kits to quickly attach to your current vertical racks, mezzanine, or conveyors. Typically, a custom solution is. BSE supply and install rack netting systems from RackNets, providing a full, competitively priced end-to-end service including aftercare. Choose from: Poly/Nylon Safety Netting – easy to install and durable polypropylene or nylon netting. Designed to prevent items from falling off pallet racks, it ensures the safety of workers while maintaining the integrity of stored products. As operations transition from basic.
