

SMC96 core optical cable junction box

Overview

The SJ-ODB-96-SMC fiber optic distribution box is a high-capacity, versatile solution designed for efficient management and distribution of fiber optic cables in various network environments. Primarily utilized for outdoor optical cable connections and distribution, it facilitates an. The Cross Connection Distribution Cabinet is crafted for seamless integration between telecom feeder and customer cables. Typically floor-standing, occasionally wall-mounted, it elegantly serves as an optical node in access networks, strategically placed on the street. It is commonly deployed in. The outer shell of this fiber optic box is usually made of sheet molding compound (SMC), which is a glass fiber reinforced plastic with the advantages of light weight, high strength, waterproof, moisture-proof, dust-proof, and anti-aging, and is suitable for various indoor and outdoor environments. 96 Cores SMC Fiber Optic Cross Connect Cabinet With 1:8/1:16/1:32 Module Type Splitter It is mainly applied in ODN network to connect the trunk cable, the distribution cable and the interface device of optical splitters.
