

Safe City DC Power Supply Unit 19-inch

Overview

The highly efficient design provides regulated 12V DC with a maximum available current of 16A, in just 1U of rack space. Tidy, quick and simple installations can be achieved with the plug & play rear connections. Application Support PULS has successfully established an experienced team of application engineers to offer you the maximum. Power supplies within precision-made mild steel enclosures, finished with a white powder coating for durability. Mounting kit with spares included. Ecopac Power has a range of 19" 1U high rack mounted power systems from 1000 watts to 3200 watts configurations. With universal inputs and output voltages available from 12V, 24V and 48V they have been designed with active current sharing allowing up to three racks to be operated in parallel. Using 19" rack power distribution units enable central and organised power distribution within a rack, ensuring maximum operational reliability and order when supplying power to a wide range of devices. For applications that require 19 inch rack mounting, we have a wide range of PSUs to meet your requirements. To easily filter through our selection of products, use the "Filter Products" button as above.
