

Swiss Agent for Special Multimode Optical Cables

Overview

The SwissOptic AG is based in Switzerland - your long-term and trusted partner along the entire value chain – from concept to volume production. From vertical integration capabilities in ceramic CIP/CIM, metal machining, and plastic molding to cleanroom manufacturing and high-purity cleaning processes, our expertise spans the entire production process. Their products are recognized for their exceptional ultra-low loss characteristics and have been. Studer Cables AG is a Swiss solution provider of secure and high quality power and data transmission systems. For application examples and reference projects from Solifos, please. Based on the resources of one of high end's most distinguished design companies, the swisscables product range offers truly innovative technical design and sonic merits at a groundbreaking price-performance level, manufactured to the highest standards in Switzerland. We use cookies and process personal data for the.

Fiber Optic Cable | Farnell Switzerland

Farnell's fibre optic cables are engineered to provide high-speed, high-bandwidth data transmission over long distances with minimal signal loss. Ideal for telecommunications, data centres and networking

Dec 10, 2025

Fiber Optic Cable Production

Fiber Optic Cable Secondary Coating The secondary coating of your fiber optic cables is the most important aspect in your production process. As the quality of

Feb 12, 2026

Multi-mode optical fiber

Multi-mode optical fiber is a type of optical fiber mostly used for communication over short distances, such as within a building or on a campus. Multi-mode links can

Sep 25, 2025

Multimode Transceivers

Multimode Transceiver Modules are an essential piece of your fiber or copper network. Fiber optic transceivers or optical modules as often called, connect ethernet and optical cords together. LC

May 09, 2026

Single-mode vs Multimode SFP: What's the Difference?

Single-mode SFP and multimode SFP are the two main types of hot-pluggable optical transceivers used in fiber optic networks. Both of them use LC

Apr 21, 2026

Fiber Optic Cables

Corrugated steel tape armoured central loose tube cable with excellent mechanical protection and thus secure rodent protected. The cable features a two jacket construction with up to 24 fibers maximum

Oct 23, 2025

Understanding Single-mode and Multi-mode SFP

Small Form-factor Pluggable (SFP) optical modules are widely used in networking to facilitate high-speed data transmission over optical fiber cables. They come in two

Jul 25, 2025

Multimode vs Single Mode Fiber Optic Cables: A Complete Guide to

Learn the differences between multimode (OM1-OM5) and single mode (OS1-OS2) fiber optic cables—speed, distance, applications, and how to choose the right one for data centers and

Sep 03, 2025

opticalCON DUO HYBRID

Ruggedized and dirt protected fiber optic connection system Waterproof acc. to IP65 safety standard in mated condition Extra robust hybrid cable with 2 multimode

Dec 08, 2025

Fiber Optic Solutions for High-Performance | Diamond SA

As a Swiss company with a long-standing tradition in the development, manufacturing, and assembly of high-precision fiber optic components, we operate both nationally and internationally in the field of
