

Syria Engineering Bridge Construction

Overview

Our latest projects focus on restoring two key bridges on branches of the Euphrates River in Deir Ezzor, essential for connectivity and economic recovery. 1
Rehabilitation of Al Ganama Bridge (2022-2023) □□ Location: Deir Ezzor, Syria □□ Scope of Work: □ Structural. The Director of Land Transport at Syria's Ministry of Transport, Engineer Ali Asber, has revealed new details about a memorandum of understanding (MoU) signed between the Syrian government and the French company Matière to rehabilitate key bridges across the country. Speaking in a televised. Syrian Minister of Transport Dr. Yarub Badr met with Philippe Matière, Director of the French company “Matière” specialized in bridge construction, and his accompanying delegation to discuss prospects for cooperation in rebuilding and repairing roads and bridges in Syria. They discussed implementing their 2023 agreement to rebuild 32 Syrian bridges, stressing its importance for restoring key infrastructure post-liberation. On Thursday, the Democratic Autonomous Administration in North and East Syria (DAANES) inaugurated the new Bridge of Raqqa, also.
