

The fiber optic cable poles have been removed

Overview

Nairobi City County launched a crackdown on unauthorized fiber optic cables mounted on power poles along key highways amid an escalating feud with Kenya power. This affected many subscribers who rely on the poles for internet in various places. For poles installed less than 12 months ago: For poles older than 12 months: Seen a notice about a new pole being installed?

You can object before installation. Should they have?

(and who is going to do this?)

) Thanks, AXW 22-05-2024 15h53 - edited 22-05-2024 15h56 If your new fibre drop wire is from. Deploying fiber above ground on poles or towers removes the need for underground digging and is particularly useful when the ground is uneven, rocky or both. Aerial installation is generally much less costly than underground construction also. Fiber in a duct solutions have a major aesthetic.
