

Tight-packed optical cable

Overview

These cables are single sheath single steel armored cables in construction suitable for direct burial and duct applications. In Optral we manufacture cables with the best optical fibers in the market. Sensing & Monitoring Solutions based in Optical Fibre We have product quality certificates UL. Belden's extensive line of indoor and outdoor cable products is offered in tight buffer and loose tube designs. For each product design, items for OM1, OM3, OM4, OM5, and OS2 (Singlemode) items have been. The mechanical properties and transmission properties of armored small flexible optical cables are widely used in national defense communications, radio and television systems, building intelligent control, power control systems, traffic communication systems, metropolitan area networks and local. Protect your data connections and network installations with our indoor/outdoor tight buffered armored fiber cable.
