

West Africa Fiber Optic Cable Construction Unit

Overview

Itissalat Al Maghrib (Maroc Telecom) has invested 150 million euros in the construction of a new submarine fibre optic cable. While submarine communications cables are used to connect countries and continents to the Internet, terrestrial fibre optic cables are used to extend this connectivity to landlocked countries or to urban centers within a country. From our humble beginnings in 1996, Coleman Wires and Cables has grown into a symbol of innovation, resilience, and industrial leadership in West Africa's cable manufacturing sector. What started as a vision to produce quality electrical wires locally has evolved into a legacy of groundbreaking. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy," said Jessica Gu, Director & Chief. West African oil and gas service company, Coleman Technical Industries Limited (CTIL) has opened its multi-billion-dollar fibre optic cable manufacturing factory, hoping to take advantage of the African Continental Free Trade Area (AfCFTA) to play big in the African market. The company is renowned. Dapo Abiodun, Governor of Ogun State in Nigeria, inaugurated the first fiber optic cable manufacturing plant in West Africa on Thursday, July 14. Called the Coleman Wire and Cable Fiber Optic Company, the plant was built by wire and cable manufacturer Coleman Technical Industries Limited (CTIL), in. This 4 fiber pair system with total 18 leading international telecom carriers.
