

# Where is the Portugal-Eurasia Optical Cable

## Overview

EllaLink, that will unite Europe and Latin America, will develop the Olisipo submarine cable system. The system consists of a fiber optic cable submarine not relayed from 110 km. Explore cable routes, landing stations, system status and infrastructure updates. EllaLink owns and operates the EllaLink cable connecting Europe to South America from Portugal to Brazil. The Olisipo submarine cable system, developed by EllaLink, is set to support the digital development of Portugal, particularly in the region of Sines, enabling its transformation into one of the hottest places in Europe for data centre construction and connectivity hub. With Diego Matas, EllaLink. The Submarine Cable Map is a free and regularly updated resource from TeleGeography. The EU and LAC come together: a 6.
