

Which PoE switch is the best to use

Overview

If you're looking to power your network efficiently in 2025, check out the top PoE switches like the TP-Link TL-SF1005P and TL-SG1428PE, along with NETGEAR's GS308EP and GS308PP models. STEAMEMO offers great options too, with managed and unmanaged switches to fit your needs. The Aruba Instant On 1930 24-Port is the best PoE switch for most small to medium businesses because it delivers enterprise-grade features with cloud-based management at one-third the cost of Cisco alternatives. After testing 12 switches for 45 days with various real-world scenarios including 16 IP. I've researched the top PoE network switches of 2025 and found excellent options for different needs, from compact unmanaged models to powerful managed switches with high PoE budgets. Many feature durable, fanless designs for silent operation and long-lasting performance, supporting devices like. Power over Ethernet (POE) switches are essential for any network, providing both data and power through a single cable. Whether you're setting up security cameras, VoIP phones, or wireless access points, a reliable POE switch can make all the difference. 4 watts of power per port, while PDs can consume up to 12. PoE switches are commonly used for simple devices.
